Greetings Electronic Engineers:

Thank you for supporting our software by purchasing A-Train™, another one of our fine Software Toys™.

In spite of our relentless testing on every computer we can get our hands on, we may have overlooked a bug or two.

If you find a bug in A-Train, let us know. Send us a card or letter describing the problem. Be as specific as possible so we can track it down and squash it. Please include your phone number in case we need more info. In addition, please tell us about your computer: the make and model, operating system, etc.

Send it to:

MAXIS

Two Theatre Square, Suite 230

Orinda, CA 94563-3346

Attn: Train Wreck!

Or call:

510/254-9700

Once we have the bug licked (and our teeth brushed) we'll send you the new version of A-Train. If you are the first one to report a real, repeatable bug that is our fault, we'll send you a prize.

We're talking bugs now, not wish lists of features and functions and improvements to add to the program—oh, what the heck, send us your wish lists too. If you can think of a way to make this product better in any way, send it in a card or letter to:

MAXIS

Two Theatre Square, Suite 230

Orinda, CA 94563-3346

Attn: Training Wheels

If your suggestion's good enough, we just may send you a nifty prize, too.

Sincerely Yours,

Jeff Braun, President

P.S. Be sure to send in your registration card.

P.S.S. See the back of this card for complete Maxis Customer Service and Technical Support Information.
